MIDAS # 0236
BIG DIMMICK POND
CARATUNK SOMERSET CO., ME.

BIG DIMMICK POND

Caratunk, Somerset County
U.S.G.S. Dimmick Mountain, Maine (7½')

Fishes

Brook trout
Minnows
Redbelly dace
Creek chub

White sucker

Physical Characteristics

Area - 90 acres

Maximum depth - 39 feet

Principal fishery: Brook trout

Temperatures:

Surface - 63°F

36 feet - 51°F

Big Dimmick Pond is located east of Moxie Mountain. Its major inlet enters the southern tip of the pond from Mountain Dimmick Pond. The pond's outlet flows northwest into nearby Little Dimmick Pond. Its shoreline is undeveloped.

Water quality in Big Dimmick Pond is good for coldwater gamefish. Annual stockings of brook trout supplement a native population to provide a fishery. Trout growth is good with only light competition from other fish species.

Big Dimmick Pond is accessible via a series of gravel roads north of Bingham. The pond is open to fishing with no live fish as bait in the summer and closed to fishing in the winter.

Surveyed - September, 1959

Resurveyed - 1972, 1979
